

PRIME, INC.

is proud to be an active participant in

RESPONSIBLE CARE[®] PARTNERSHIP PROGRAM

As a Partner in the Chemical Manufacturers Association's Responsible Care[®] initiative, we are committed to support a continuing industry effort to improve the industry's responsible management of chemicals. We pledge to manage our business according to these principles:

- To recognize and respond to community concerns about chemicals and our operations.
- To develop and produce chemicals that can be manufactured, transported, used and disposed of safely.
- To make health, safety and environmental considerations a priority in our planning for all existing and new products and processes.
- To report promptly to officials, employees, customers and the public, information on chemical-related health or environmental hazards and to recommend protective measures.
- To counsel customers on the safe use, transportation and disposal of chemical products.
- To operate our plants and facilities in a manner that protects the environment and the safety of our employees and the public.
- To extend knowledge by conducting or supporting research on the health, safety, and environmental effects of our products, processes and waste materials.
- To work with others to resolve problems created by past handling and disposal of hazardous substances.
- To work with government and others in creating responsible laws, regulations, and standards to safeguard the community, workplace and environment.
- To promote the principles and practices of Responsible Care[®] by sharing experiences and offering assistance to others who produce, handle, use, transport or dispose of chemicals.

Responsible Care[®]
A Public Commitment
